NATURAL PYRETHRUM INSECTICIDAL CONCENTRATE

ACTIVE CONSTITUENTS: 80 g/L PYRETHRINS
480g/L PIP[ERONYL BUTOXIDE

GROUP 3A INSECTICIDE

For the control of a wide range of insects including insect pests of household, garden, commercial and agricultural situations as per the DIRECTIONS FOR USE table.

1300 246 406
sales@scintex.com.au

DIRECTIONS FOR USE:

SITUATION	PESTS	RATE	CRITICAL COMMENTS
Fruit and vegetable crops, cut flowers and ornamental plants.	Aphids, ants, cabbage moths and other caterpillars, earwigs, leafhoppers, thrips, whiteflies.	1mL in 1L of water or 100mL in 100L of water	Mist or spray to contact the pests when infestation occurs. Thorough coverage of all foliage including undersurfaces is essential.
Domestic, commercial, industrial and public buildings including: food processing establishments, shops, factories, hotels and motels, shipping containers, offices, schools, storerooms, warehouses, hospitals, barracks, private houses and external areas associated with such establishments. Agricultural buildings including: storage sheds, milking sheds, other high density animal production sheds, barns, kennels and stables.	Mosquitoes, flies, midges, ants, silverfish, moths, cockroaches, grain weevils, spiders, earwigs, beetles and other flying insects	SURFACE SPRAY: 60-80mL per 100m ² SPACE MIST OR FOG: 18mL per 1000m ²	SURFACE SPRAY: Dilute with suitable volume of water and direct spray to contact the insects and into cracks and crevices. SPACE MIST OR FOG: Dilute with suitable volume of water and direct mist or fog to contact flying and exposed pests in all parts of the area. CAUTION: Mist or fog droplets cannot penetrate to kill insects inside a grain mass or product where they may be breeding. Use regularly to kill emerging insects before they can reinfest or spread to other areas.
Outdoors	Adult mosquitoes, midges, flies and other flying insects	250mL/ ha	Dilute with suitable volume of water and use through misting or fogging equipment.

RESTRAINTS:

DO NOT spray if rain is expected within 2 hours. **DO NOT** mist or fog in windy conditions. **DO NOT** use on young seedlings.

- ! Not to be used for any purpose, or in any manner, contrary to this label unless authorised under appropriate legislation.

WITHHOLDING PERIOD - EDIBLE PLANTS:

- ⊘ **DO NOT** HARVEST FOR 1 DAY AFTER APPLICATION.

GENERAL INSTRUCTIONS:

INSECTICIDE RESISTANCE WARNING

GROUP 3A INSECTICIDE

For insecticide resistance management Natural Pyrethrum Insecticidal Concentrate (NPIC) is a Group 3A insecticide. Some naturally occurring insect biotypes resistant to NPIC and other Group 3A insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if NPIC or other Group 3A insecticides are used repeatedly. The effectiveness of NPIC on resistant individuals could be significantly reduced. Since occurrence of resistant individuals is difficult to predict prior to use, the manufacturer accepts no liability for any losses that may result from the failure of NPIC to control resistant insects. NPIC may be subject to specific resistance management strategies. For further information contact your local supplier, Scintex, or your local agricultural department agronomist.

APPLICATION: Shake the container before opening. Measure concentrate accurately into the diluent and stir/agitate thoroughly.
⊘ **DO NOT** spray the moving parts of any machinery, electric motors or switchgear.

PRECAUTION: Avoid contact with food, food utensils or places where food is prepared. Clean up thoroughly before processing/serving resumes.

PROTECTION OF LIVESTOCK: Dangerous to bees.
⊘ **DO NOT** spray any plants in flower while bees are foraging.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT:
⊘ **DO NOT** contaminate streams, rivers or waterways with chemical or used containers.

STORAGE AND DISPOSAL:

⊘ **KEEP OUT OF REACH OF CHILDREN.**
Store in the closed, original container in a dry, cool, well-ventilated area.
⊘ **DO NOT** store for prolonged periods in direct sunlight.
Triple rinse containers before disposal. Add rinsings to spray tank.
⊘ **DO NOT** dispose of undiluted chemicals on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulation.
⊘ **DO NOT** burn empty containers or product.

SAFETY DIRECTIONS:

Repeated exposure may cause allergic disorders. Sensitive workers should use protective clothing. Avoid contact with eyes and skin. Do not inhale mist. Wash hands after use.

FIRST AID: If poisoning occurs contact a doctor or Poisons Information Centre. Phone Australia 131126.
